

March 14, 1932.

Mr. J. Winter Smith,
San Jose, California.

Dear Mr. Smith:

RE: UINTAH DIST.

I have your letter of February 10 with enclosed copy of report on Dry Fork Water Supply which you spoke of when you were last in Salt Lake.

I am very glad indeed to have this report, the latter part of which gives much the best analysis of the Dry Fork sinks of which I have any knowledge.

Thanking you for letting me have this copy, and with kind personal regards, I remain,

Yours very truly,

State Engineer.
